(7th generation, S12a~)

Review Process

- 17 categories \Rightarrow 9 groups (each has 10~20 proposals)

A-1 : solar system

A-2: extrasolar planets

B-1 : star formation, ISM

B-2 : normal stars

B-3 : compact objects and SNe

C-1 : galaxy clusters, GL, LSS, cosmology

C-2 : high-z, deep

C-3 : nearby galaxies, LG, MW, starburst

C-4 : AGN/QSO, QSO abs.

- 5 referees for each group (Japanese 2~3)
research fields, observation/theory, recent activity

Review Process

■ Points in selection

- TAC review
- Referee scores and comments
- Technical comments from SS
- Requested nights
- Previous observation, continuation
- Challenging / high-risk high-return
- Thesis work
- Scheduling

■ Service proposals

- Nights are allocated so as to have equivalent competition rate with normal program
- Reviewed by 3 TAC members
- Rank A (high priority) / Rank B (low priority)

Discussions in TAC

- What is Intensive proposal ?
 - Normal < Intensive << Strategic
 - 10nights/sem. is reasonable?
 - Periodic monitor observation. New philosophy?

- Keck/Gemini time exchange programs
 - Modified frameworks, MOU → see Director's talk

- Service proposal
 - English? or Japanese? Which is educationally valid for students?

- How to subdivide C2 into subcategories?
 - Oversubscription in C2(high-z, deep)
 - No good idea so far

Changes in S12B

- requested to specify email addresses of all co-investigators.
- Please obtain consents of all coIs to be included in the list, since e-mail notification will be sent them just after the closing of application.

5. Co-Investigators

All potential observers should be listed here, since our travel support will be limited up to 3 Japanese researchers listed here. For this reason, please avoid using the name of a team or group.

Items input here are also used for STARS/MASTARS registrations. **Please fill a complete first name as well.**
